Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-9 and 63 drawn to an optical regeneration system for regenerating a degenerated optical signal, including a regenerator, classified in class 398, subclass 175.

II. Claims 10-22 and 55-62, drawn a waveform reshaping device having a soliton converter and soliton purifier, classified in class 398, subclass 179.

III. Claims 23-25, drawn to a waveform reshaping device, wherein a saturable absorption substance having a saturable absorption characteristic is used in place of the soliton converter, classified in class 398, subclass 185.

IV. Claims 26-46, drawn to a Kerr-shutter, classified in class 385, subclass 27.

V. Claims 47-54, drawn to a pulse roller, classified in class 385, subclass 24.

2. The inventions are distinct, each from other because of the following reasons:

Inventions I, II, II, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because invention I is related to an optical regeneration system for regenerating a degenerated optical signal, including a regenerator. Invention II related to a waveform reshaping device having a soliton converter and soliton purifier. Invention III related to a waveform reshaping

device, wherein a saturable absorption substance having a saturable absorption characteristic is used in place of the soliton converter. Invention IV related to a Kerr-shutter. Invention V related to a pulse roller.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II to Group V restriction for examination purposes as indicated is proper.
